EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel Claim 8.

Election/Restrictions

This application is in condition for allowance except for the presence of claim 8 drawn to an invention non-elected without traverse. Accordingly, claim 8 has been cancelled.

Allowable Subject Matter

Claims 1-7 are allowed

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or render obvious a method for making a through-hole in a silicon substrate comprising etching the silicon substrate at the opening through the mask layer until the etching stop layer is exposed to the second surface while the high-impurity-concentration region is not exposed to the second surface, and subsequently further etching the silicon substrate until the etched portion extends to the high-impurity-concentration region, as recited in the context of claim 1, including the steps of forming a high-impurity-concentration region at a first surface of the silicon substrate that continuously surrounds only the periphery of a through-hole-forming region, forming an etching stop layer over the through-hole-forming region and the high-impurity-concentration region, forming a mask layer having an opening on a second surface of the silicon substrate, the second surface being opposite to the first surface, and removing the etching stop layer at least at the portion exposed to the second surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
